

# EUROM OUTSIDER

The Eurom Outsider is a radiant heater to be used outdoors. A light frame and big handle make the Outsider easy to carry. This makes the gas heater ideal for camping or fishing trips.

The Outsider runs on a gas tank with a propane/butane mix. This gas tank must have a screw connection of the type EN417 7/16?. The heater itself has an oxygen sensor that measures if there is still enough oxygen in the area. The Outsider also has a flame protection that shuts off the gas supply if the flame dies out.

All combined, the Eurom Outsider is a safe, portable heater that will become your best friend on all your nature trips.

Product number	322569
EAN	8713415322569
Suitable for space	garage/shed, at the camping
Power	2000 W
Power selection	2
Powered by	fuel
Fuel	butane, propane
Fuel consumption	112 gr/h
Connection	screw-on connection EN417 7/16 "
Max. pressure	7,5 bar
Control	
Ignition	piëzo
Tip-over switch	yes
Mounting	standing
Encasing	plastic, metal
Dimensions	19,1 x 33,8 x 39,4 cm
Weight	4,3 kg
Details	flame control, only for outdoor use, oxygen protection
Warranty	3 year
Where do you want to heat?	Camping, Home
Outdoor	Heating
